Topic are discussed very well in classes
More use of practical illustrations Use of Hindi/English for those students who are not able to understand Marathi properly Rest is good
Communication
Group discussion, tutorial to conduct, more presentation
Use ICT method more. Take class tests. Tell more about internship opportunities.

Take class tests.  
Tell more about internship opportunities.

Stay updated with current laws

If the fans are repaired properly... it'll be a great help since the class gets entirely claustrophobic and it gets difficult to understand anything while being uncomfortable and sweaty... this makes us want to skip lectures since sitting in a hot classroom for hours during summer is a tedious task

Use online class facility

No suggestions over all it has good facilities

Very better

1. Using PPTs, word,etc
2. Interactive sessions
3. understanding students way of understanding

It is very hard to understand the language of bare act, so it should be taught in a good way by giving us an example.

1. Use better graphics and visual media to engage students well.
2. Make teaching a two way interaction

Ne

Cooperative behaviour between students and teachers is required.

Gud

Conduct offline classes for certificate course

Provide the note of every subjects  
More focus on student placement  
Teacher has to mentor personally to every student to research and another activities.

Nothing

More focus on E learning  
In depth knowledge about the topics  
Excellent quality of learning

They should focus on each student, not a particular students.  
They need to clear the concept until all students understand.  
They have to describe each point because it is new for everyone and we cannot understand quickly.

1. To give the chance to students to overview their skills
2. Communicate with students about interships.

Only prajkta bhagwat uses projector and teaches efficiently and Vandana pawar mam always trying to solve students problems

1. More concentration on in depth knowledge about subject/topic is needed.
2. Exposure to more opportunities to even more students instead of few selected ones and to ensure the best students gets selected fairly.
3. Hope for no more partial discrimination. Equal and fair treatment to all.

1. Need improvement/Change the Projector.
2. WiFi not Working.

1. Teachers don't take initiative in well explaining they explain like a student.
2. The classes are not regular.
3. Teachers don't show interest in teaching they just do their work there's no interest in acknowledging the doubts.
4. The institution doesn't provide better facilities during the internals examination.

Use of more modern technology

Uses of more modern technology

Syllabus coverage and not reading pots and books instead explain them

1. Better and effective use of language
2. Better activities and assignments instead of written work
3. ICT tools are being used but can be used more effectively.

it was overall a good experience.

Be Practical

Only reading is not an option understanding of the concept is also important.

Be more Interesting sessions whenever we r going to study any particular subject.

No any Suggestions

Teachers should be little more interactive !!

1] Teacher should explain each and every concept giving by examples.

2] Teacher should show the videos on Projector Screen that are related to topic and there in syllabus..

3] Teacher should not do partiality in assignments and internal marks... The students who are coming after so many days that are getting very good marks in internal exam...

1)Instead of dictating notes ask us to make them.

2)Be a bit understanding with the students who are also part time working instead of just straight away marking them the lowest marks possible.

3) Most importantly - try to bring in more advocates to talk about how to get a good internships, multiply our skills, etc to help us increase our connections and job prospects.

Use of digital media for teaching

The great staff of teachers in our subjects

Effectiveness is important in teaching

Use of ICT tools, Encouragment of students and practical knowledge of court proceedings.

Teachers are very helpful. Thankyou everybody.

Teaching staff should be taking care of all the students are getting the point or not.

I think there's no need of suggestions because all the teaching members are giving their best and are encouraging and supportive to all of us every time .

Lots of improvement is needed and stop traditional methods and rattafication due to which students who genuinely study wont get expected results and stop doing partiality in classes 🙄

Some faculty need to understand the instability of career in students life and if they are managing to fo both tasks (practice and study) some faculty have to be supportive. If assignment is not given in time n student is asking for 2nd chance instead of giving that chance the faculty shows attitude n tells how much power she holds n how helpless the student is. Its not fair just because of 1 subjects internal marks the student have to face failure n give 6 months more for the course. Faculty: Adity Mishra

Give more practically oriented or come up with skill development programs ,which might help young youth get on proper career track.

Fairness of the internal evaluation process by the teachers must be given importance.

1.Improvement in projector of classes.

1) The institute ie exelent

Overall good

No sugesstions at all

Average

Teaching faculty is supportive and encouraging so I think their no suggestions .

1. Time should allotted for internships
2. MOD club should be more active and conduct intra college competitions
3. Reimbursement should be done for academic competition that the student participates in.
4. College must host more competitions for higher exposure.

1. Time should allotted for internships
2. MOD club should be more active and conduct intra college competitions
3. Reimbursement should be done for academic competition that the student participates in.
4. College must host more competitions for higher exposure.
5. Classrooms and Washrooms should be cleaned on a daily basis.
6. Annual adjournment was a good event but the volunteers were more biased and in the end they took the trophy to themselves.
7. Screening of moot court competition should be fair.
8. College should develop a mooting culture rather than the culture events.

Nope

1) us

Can provide constructive feedback,Create a positive learning environment and can engage students with interactive activities

To Understand student

- \*Teachers are not enthusiastic.
- \*Some teachers just read the bare act without giving satisfactory explanation.
- \*Some teachers are very dull

Not do partiality

Can't think of any

Increase the practical approach towards the law

All teachers are awesome with their work

Smile and mingle with the student,Less pressure and Understanding the student's problem

Satisfied with learning experience

Great experience  
Good observation  
Patiently teaching

Teacher not Complete there syllabus and they behave rudely with students

Teaching needs to be participative.  
Application of law needs to taught.

Keep it up

Regularity while conducting lectures and giving prior notice if lectures are being cancelled.

No suggestions

1.more books in the library
